

Atlas Die, LLC
KEEPING YOU SHARP

Preferred CAD File Formats

Atlas Die can produce your tools using many file formats. Sending us your files in a preferred format will help us ensure that your tooling arrives accurately and quickly. Supported Formats are used every day at Atlas. However, we prefer that you submit your project using one of the Preferred Formats for maximum compatibility.

Please be sure to clearly mark all data to indicate whether it is showing print side or die side.

Preferred Formats (*file formats for maximum compatibility*):*

1. IPD - Impact 2013 or Lower
2. CF2/.CFF2 - Common File Format v2 – CFF2
3. DD3/.DDE - Digital Data Exchange Specification v2/v3 - DDES
4. DXF - 2D AutoCAD Exchange
5. DWG - 2D AutoCAD Drawing

Other Supported Formats:

1. MFG/ARD – ArtiosCAD v14 or Lower
2. CIM – Cimex Cimpack V13 or Lower
3. EPS – Encapsulated Postscript
4. PDF – Portable Document Format – Preferably Vector Formatted

***Preferred Formats for Embossing Projects:**

1. EPS – Encapsulated Postscript
2. PDF – Portable Document Format – Preferably Vector Formatted

If you have any questions, please call us and we will be glad to assist you.
